GOVERNMENT GOSSIP.

The Work on the New Cruisers, Atlanta, Boston and Chicago.

THEIR APPRAISED VALUES.

Mr. Coon's Resignation as Assistant Secretary of the Treasury.

WHO WILL SUCCEED HIM?

Synopsis of Naval Constructor Nicholson's Report.

SIGNAL SERVICE DETAIL.

Navy Commission Issued.—Ensigns of the Navy have been commissioned lieutenants in the grade of Ensigns, February 2, 1885. He has just returned from a cruise in the Yantic, and completed his examination for promotion this week. He has already been promoted.

Government Officials As Voters.—Secretary Whitney and Treasurer John had to be in New York city to-day to register in order to secure their right to vote. The President, Secretary Manning and other officials voting elsewhere in the State are not affected by the same registration law.

Bids for a School Building.—Bids were opened to-day by Acting Commissioner Upshur and Commissioner of Education for the erection of an Indian industrial school at Grand Junction, Colorado. The bids ranged from \$150,000 for brick to \$160,000 for stone. It is thought that a substantial building can be put up for about \$140,000.

Eldest Attorney's Fees.—The Attorney-General has declared that District Attorneys may receive fees for prosecuting internal revenue officers, even without receiving written reports from the Collector of Internal Revenue showing necessity of such prosecution. Verbal reports of collectors if made a matter of record, are sufficient.

Payment on Harper's Ferry Property.—W. O. Savory of Wilmington, Del., yesterday paid the second installment on the Harper's Ferry property, which the Government sold some time ago for \$25,000. The purchasers contemplate utilizing the water power in their possession for supplying mills, which they intend to establish.

To Prevent Land Grabbing.—In order to prevent, if possible, illegal grabbing of public lands Commissioner Sparks has instructed the registers of public lands and receivers of public moneys to put conspicuously in their offices a notice specifying a town or place in which they are to be sold, and that the notice, which shall be in the form of a circular, shall be in the hands of the registers and receivers of public moneys, and that on and after such day applications for the entry of lands in such township will be received.

Pension Office Promotions.—The following promotions and appointments have been made in the Pension Office: Mr. Sam H. Patterson, Mississippi, and Mrs. Ellen K. Temple, Wisconsin, from \$1,000 to \$1,200; Miss Mattie A. Lester, Mississippi, from \$1,000 to \$1,200; Mrs. Mary E. Terry, Massachusetts, from \$1,000 to \$1,200; Mrs. Mary E. Terry, Massachusetts, from \$1,000 to \$1,200.

A Field Signal Company.—General Hazen, chief signal officer, is about to organize a company of thirty men for special assignment in visible field signaling and the construction and operation of field telegraph and telephone lines. The company will be selected as far as possible from old soldiers and will perform only strictly military duty. It will include the use of the signal, as in cavalry divisions, guard duty and signal drills. There will be three sergeants and two corporals, and three privates. The company will be organized for duty with the company. The officers have not yet been definitely decided upon.

The Recorder of Deeds.—The Philadelphia Press says that Mr. Robert Purvis returned to that city yesterday from Washington where he had been for the purpose of seeing the President in regard to the appointment of a successor to Fred Douglass, Recorder of Deeds of the District of Columbia. Douglass is an offensive partisan and must go. He made fiery speeches for Blaine before the election, and is an offensive partisan. He is trying to carry over his own party. He is trying to carry over his own party. He is trying to carry over his own party.

Naval Constructor Nicholson's Report.—The report of Naval Constructor Philip Nicholson, U. S. N., lately received at the Navy Department, contains many subjects of importance to the members of the corps, and will be of great interest to all who feel the necessity of placing the naval equipment of our country on a plane commensurate with her greatness. By order of the Secretary of the Navy this office visited the principal dockyards of Europe, and has collected a large amount of varied information abundantly illustrated by sketches, photographs and drawings, the whole forming a report of great practical value. The work deals with facts and is independent in political bias rather to present concise statements from which the professional brethren may draw conclusions. The report is divided into two parts, the first dealing with the general principles of naval construction, and the second with the details of the principal vessels now building by England, France, Germany and Russia, with numerous illustrations. This is followed by an interesting chapter on the construction of the Naval Vessels of the United States. The report is a valuable contribution to the knowledge of naval construction, and will be of great interest to all who feel the necessity of placing the naval equipment of our country on a plane commensurate with her greatness.

INDIAN AGENT GREEN.

An Old Soldier Who Assisted in the Capture of John Brown.

Major Israel Green of Mitchell, Dakota, who has just been appointed to the Sioux Indian agency, went to Dakota several years ago from England, where he was in the United States Marine Corps, and was the senior officer in command at the Washington Barracks in October, 1859, at the time of the John Brown raid at Harper's Ferry. He headed the detachment of military marines that was ordered to the scene of the rebellion, and led the assault on the old engine house, where Brown and his men had fortified themselves. When a bullet was fired from the old engine house, Green crawled through, ran around one of the fire engines, and found John Brown reloading his carbine. The officer brought his sword down on the old man's head with such strength and disabled him. The assault was highly commended by General F. F. Smith, who was in command of the military marines at Harper's Ferry. He will have charge of about 1,000 troops at the Sioux agency.

An Advertising Interview.

Mr. Lott, Oct. 24.—At 10 o'clock today another and more public interview occurred in the office of circuit attorney between Mr. Samuel M. Brooks of England and the prisoner, the son, who has heretofore gone by the name of Maxwell.
